### Check Being Made On CIA Employee

Washington, Aug. 4 (AP) — The Central Intelligence Agency has suspended Hans V. Tofte from his normal duties while checks are made on whether he committed a security violation, the CIA said today.

The investigation concerns an incident late last month in which a fellow CIA employee allegedly found secret material at Tofte's home, in violation of CIA regulations.

Tofte's wife, in addition, reported to Washington police after two CIA men came to their home that some \$10,000 worth of jewelry was missing.
